

Many times, reservations are the exact opposite of development and equality. Currently, we don't require reservations based on castes or religion but only to provide support to those with merit but fewer resources. This way, we would successfully eliminate caste discrimination and unite the economically rich to support the economically poor, regardless of their castes

sameeksha

Points Against Reservation:-

1. 15% For SCs , 7.5% STs , while 27% are for OBCs In Central And State Government Jobs, Educational Institutions.
2. The Population Of The STs Is About 8.6% And The SCs Is 32 %
3. In The Remaining 50% For The OCs Who Are About More Than Half Of The Population.
4. All The Students Study Averagely Of SCs And STs Get Less Marks But Get The Same Rank As The Ones Who Work Hard.
5. The Same Is For Jobs.
6. The More Educated And Professional Workers Are Migrating To Other Countries Which Increases Their Economy (Ex- Sundar Picahi(Former Ceo Of GOOGLE) And The Ceo Of Alphabet) Which In Turn Makes Our Country Less Developed Than Others (Ex- USA).
7. It Encourages The Social Divisions And Makes Castes Discrimination, Also Most Of The OCs Are Registering Their Names As SC Or ST Because They Too Want Reservation.

The major disadvantage of the reservation system in India is that the castes that should be actually benefited are not being benefitted, instead, others who are not in need are reaping the benefits of the reservation system. One caste after another will start demanding reservations due to the success of others.

Reservation has become the topic of group discussion amongst us over the years. As it has advantages, it does have few disadvantages. Disadvantages that are causing many kind of problems in society. As it is helping many backward classes, it is also affecting forward class people because of the quota system. At the present scenario, not every backward class people is financially

weak or uninfluential and not every forward is rich. So, I find the concept of Caste based Reservation very dissolutional. This way one rightful candidate is not given the opportunity he/she deserves.

Condition of General Category has actually taken a drastic turn and is deteriorating a several meritorious students/Candidates are not given the opportunities they **deserve**.

As per a national Survey only 0.7% of entire population gets scholarship through merit rest are reserved. Students studying hard and from General category don't have a bright chance to grab the opportunity even if he/ she is from financially unstable background. Time has come to amend the laws and change rules for the good.

Encouraging casteism: It's propagating the notion of caste-based society instead of eliminating it.

Srihitha

Chances of creating more castes in the society: Poor people from the forward castes still don't have any social or economic advantage over the rich people from the backward castes. If this situation persists, it may result in the formation of a separate backward caste of people belonging from the poorer section of the forward castes.

The benefit of the privileged only: Beneficiaries of reservation are primarily from the creamy layer or the dominant class in backward castes. Hence, the marginalized section still remains marginalized.

Opposing meritocracy: It's resulting in the degradation of the quality of students and employees enrolled in different institutions if the undeserving candidates get the opportunities.

Short-term relief: A reservation only provides a limited and short-term solution to the historical injustice **issues**.

The privileged getting more privileged: As the reservation grows more prominent, it becomes a mechanism of exclusion rather than inclusion. As we can see nowadays, the previously advantaged communities have becoming disadvantaged to a large extent due to the reservation problem. Many

deserving people from the upper castes are still affected by poverty and illiteracy.

Eswar

A barrier between ethnicities: It is a form of ethnic discrimination. It works as a barrier for removing casteism and racism and promoting harmony between castes and religions.

Social unrest: Reservation agitations may cause social unrest, such as during the Mandal Commission (1990).

1.) Reservation should be there but not in the form of education

MAR

2.) Caste Discrimination

3.) Creating a scene for high caste to convert into backward caste

4.) Bring down the economic growth of our country
